

Help Habitat with the Adopt a Lot project!

With more than 40 house sites waiting for homeowner families to arrive, Habitat for Humanity of Omaha has a lot of land to care for! We're asking for your help to make sure these properties look shipshape all summer long. This is a great volunteer opportunity for youth groups and families looking to keep our community clean. By adopting a lot, you help Habitat save money on mowing, so that money can be used to build Habitat homes!

Each group will be assigned its own lot. Some lots have houses that will be renovated; others are vacant. Because the grass keeps growing and those weeds keep popping up, we ask that volunteer groups commit to their lots every other week for the duration of the summer (or until about the end of September). Seem like a lot of work? Split duties with another group and just volunteer once a month!

To participate, bring your own mower, gloves and lawn-care equipment. Your help ensures that Habitat families have a beautiful yard when the time is right to move in!

Want to help make an impact?

- Beautify the community!
- Volunteer with your youth group or family
- Make sure your lot is cared for twice a month
- Ensure that our new homeowners have a great yard on moving day!
